

Eco We Go !

Eco-schools Project

Twinned Schools and Teachers

Manor College of Technology, HARTLEPOOL (United Kingdom) / Emma LAWSON

Lycée Clémence Royer, FONSORBES (France) / Yannick GUILLET

After a series of actions, pupils make exchanges on their eco-school and cultural differences.

Subjects:

Biology, Cross Curricular, Environmental Education, Foreign Languages, Natural Sciences

Languages:

English - français

Pupil's age:

15 - 16

Tools to be used:

Chat, e-mail, Forum, MP3, Other software (Powerpoint, video, pictures and drawings), Video conference, Virtual learning environment (communities, virtual classes, ...), Web publishing

Language :

English French

Aims :

Improvement of language and communication skills through a global and mutual understanding of an eco-school project and the sharing of cultural diversity

Work Process

-regular interfacing with exchange of data

1. getting to know our e-pals by e-mailing on twinspace
2. getting to know the school each one lives in through a video and e-mailing (interviews-French-English)
3. planning the eco-garden on each side with recycled materials and organic seeds (=cross-curricular activities with biology and art teachers)
4. posting on twinspace blog, images of the garden and a record of the activities, on a week basis in turn
5. feedback to try and see and account for the diversity of results based on one questionnaire (April-May)
6. debate (visioconference) about each school's future/evaluating the eco-garden to foreplan the year after

Expected Results

1. Motivation for learning and expanding one's skills through class and field work combined.
2. Global ecological and cultural awareness of our environment.
3. Physical enhancement of the school environment thanks to gardening activities.
